APPENDIX EE

ESTIMATED TIME OF ARRIVAL (ETA) CODES

The ETA code is used by shippers to indicate the number of days a shipment will be in transit from the consignor to a Port of Embarkation (POE). Using the ETA code and the date shipped code, the POE is able to determine when the shipment will arrive. The most current versions of the following codes are available at the Table Management Distribution System website at: https://tmds03.scott.af.mil/.
